ABSTRACT

The research questions consisted of (1) What types of Illocutionary acts performed by Hercule Poirot in the movie entitled Murder on The Orient Express, (2) What are the functions of Illocutionary acts were performed by Hercule Poirot in the movie entitled Murder on The Orient Express. The research utilized the speech act theories type from Searle (1976) and the functions from Leech (2016) in analyzing the data. The data analysis was performed by categorizing the data based on Searle’s types which consist of Assertive, directive, commissive, expressive, and declarative. Each category was thoroughly observed to find the answer from the problem of the study. The final step was presenting the data and making conclusion in reference to the findings of the research. The research findings show that the types of illocutionary acts found in dialogue performed by Hercule Poirot consist of assertive, directives, commissives and expressive. Related to the problems of the study, functions of illocutionary acts found by the researcher are collaborative, competitive, convivial and conflictive.

Keyword: illocutionary acts, murder on the orient express, Hercule poirot

INTRODUCTION

Communication is the important things that we use everyday. People use language to communicate each other. Pragmatics is a scientific study of utterance meaning. It discusses about the meaning behind the utterance whether it was written or spoken. Sometimes the meaning was not the real meaning (Hayati, 2021). According to (Brown et al., 1983), the advantage of studying language via Pragmatics is we can talk and know about people’s intended meanings, their assumptions, their purposes or goals, and the kinds of action that they are performing when they speak. In pragmatics, the hearers does not only understand the spoken meaning by the speaker, but he/she can also understand the context for interpreting an utterance. Basically, pragmatics has studies lots of topic, such as deixis and distance, reference and inference, presupposition and entailment, politeness and interaction, speech act and others. However, this thesis will be focused on speech acts especially illocutionary acts performed by Hercule Poirot.
Speech acts is the utterance which speaker says or speaker performs in every speech. Speech acts performs when people make utterances such as apologizing, greeting, requesting, complaining, inviting, complimenting, or refusing. The one importance of studying speech acts is to make people comprehend what message that discovered in every utterance. Speech acts are divided into three, They are locutionary acts, illocutionary acts and perlocutionary acts. An illocutionary acts is a complete speech acts because illocutionary acts is a part of speech acts which becomes the main central to linguistic elements of communication. In other words, illocutionary acts is used to understand the words meaning and the speaker or hearer's expression in the process of sending and receiving messages in communication. Moreover, the important points in illocutionary acts are utterance and context which are related to the way of speaker in delivering messages in communication. In addition, illocutionary acts is important, because it is concerned with the speaker's meaning which usually not stated clearly and it can be found from many sources such as interview, speech, movie script, etc.

The use of language in communication will be more significant, if it can stir the hearer do something, especially in illocutionary acts. From example, “turn on the fan” the speaker might command people in the room to turn on the fan. The utterance form belongs to declarative sentence, because the subject and predicate have normal word order and the sentence ends period. Since the form is declarative, the conventional meaning is not to give information. Thus, the utterance can be said to have directive speech acts.

Illocutionary acts is a part of speech acts. This is conventional social acts recognized as such by both of speaker and hearer. However, illocutionary acts is the way we saying which is committed with the intention of the speakers such as stating, promising, apologizing, threatening, predicting, ordering, requesting, etc. Illocutionary acts is not only happened when the speaker says, but also the speaker is doing something in the To get deep understanding towards this study, the researcher limits the study on the use dialogue delivered by detective Hercule Poirot containing illocutionary acts in the movie Murder On The Orient Express based on the theory of linguistic form. The researcher also emphasize on the types based on Searle theory (1976) and the functions based on Leech theory (2016).

METHOD

The types of this research is descriptive qualitative research. The purposes of qualitative research is to understand something specifically, not always looking for the cause and effect of something and to deepen the comprehension about something that is studied (Moleong, 2021).

The researcher analyzes the illocutionary acts that performed by Hercule Poirot in movie murder on the orient express. In this case, the researcher makes an explanation about how to analyze and present what have been found. The result of descriptive qualitative do not show using statistic procedures in analyzing the data, but the results present data in form of description. It is because the data collected were words and may picture, not numeral data. Because of this, the report consist of quotation to give the image of the report. In a qualitative research, the researcher made accurate explanation to analyze and present what have been found. Primary data in qualitative research have form as words and acts. Moreover of that is an addition data such as document and the others (Moleong, 2021). The data of this research are in the form of dialogue containing illocutionary act by Detective Hercule Poirot movie “Murder on the orient express” movie dialogue, the main characters is detective Hercule Poirot. The data are taken from speech act in Murder on the orient Express. The source of the data is the movie itself. To complete the needed, some information from library and internet is collected and other books related to this study. The researcher focuses on the dialogues that contain Hercule Poirot.
In this study the data are collected through documentation. Documentation is the method used in scientific research in order to collect the data by using document. The document is all of written substance or film (Moleong, 2021). This method used because it can be made to examine and interpreting something. From this dialogue, the writer collected data that needed. In this research, the researcher has done steps to collecting data. These steps were conducted by the researcher with influence on the observation technique by (Sudaryanto, 1993). Triangulation is process to verify the data from several source. Triangulations involve using multiple data source in an investigation to produce the real data. The reason of the researcher uses triangulation because using multiple methods can help facilitate deeper understanding. In this research, the researcher used method and theories. After the data collected, the researcher observes the data which contain the illocutionary act based on expert theories.

FINDINGS AND DISCUSSION

The researcher found the data from the movie and answer the problem of the study which is mentioned on chapter I. First, this thesis analyzes the types of illocutionary acts performed by Hercule Poirot dialogue based on the theory by Searle (1976) he classified illocutionary acts into 5. They are, assertives, directive commissives, expressives, and declaratives.

Second, this thesis analyzes the functions of illocutionary acts performed by Hercule Poirot dialogue based on theory by Leech (2016) He classified into collaborative, convivial, competitive and conflictive. The result found by researcher are types illocutionary acts and functions of illocutionary acts performed by detective Hercule Poirot in movie murder on the orient express. There are four types of illocutionary acts that are performed by detective hercule poirot, There are Assertives, directive, commissives, expressive. Assertives was the nant data with 162 data or 52% and directives with 121 data or 39%. It is followed by commissives 19 data or 6% and expressive with 7 data or 2%. The submissive data obtained from the analysis in movie murder on the orient express with 7 data or 2% for commissive types, It is because hercule poirot rarely doing future acts. For the functions that also found by the researcher are collaborative with 162, competitives with 121 data, convivial with 19 data and conflictive with 7 data. The submissive data was conflictive with 7 data or 2% for conflictive functions, it is because Hercule rarely against the social purposes. Based on the finding, it can be drawn that Hercule Poirot do not use politeness in his dialogue, because collaborative functions is not relevant to politeness.

a. Assertives present the external reality by making their utterance or word, it tells about truthfully of the utterance. There are 9 assertives data that are found in Hercule dialogue, consist of stating, informing, denying, describing, predicting, explaining, opinion, arguing and convincing. Among those 9 acts, stating and explaining are the most dominant acts. For example:

Stating

Datum 26/IL/A/CB
